| Reasons for comment: | - Overdevelopment<br>- Privacy Light and Noise<br>- Trees and Landscaping |
| Comments: | I live next door to the Limeburners I am extremely concerned with this development due to the size it will create noise pollution to our quite little hamlet, more cars will be on our slow road causing more traffic and congestion. Not only that all of our wildlife will be massively effected. We have many small nesting birds who make their journey of migration they use all the trees directly behind the |

pub. Swallows, swifts, finches we have nesting owls in the surrounding trees, Barn and little owls. There are birds of prey who nest in the tress also, buzzards, red kites, kestrels and sparrow hawks. This area has a very hi traffic rate of birds if any of the trees are removed or the ground area is concreted or changed in anyway it will have a huge and devastating impact on the local environment. All the small creatures that use covered areas such as frogs, newts and other small mammals will be desemated. This is a small local community and planning such as this will absolutely ruin our quiet little hamlet.

---

Kind regards
