| Comments:            | <p>Summers Ponds development in Barns Green is still taking place (years after initial completion was expected) and yet another site is already being looked at?</p> <p>Very few of the properties at the Sumners Fields development have been sold so surely that highlights the fact that the demand</p> |

for houses in this area is extremely low. Losing another field to development will cause the area to lose more of its countryside appeal.

The houses in the plan will also tower over any of the houses already in the village which is not in keeping with its surroundings making it an eye sore for the whole community.
