Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking
Comments:	This development will require a new access point onto Chapel Road. this new access will increase the amount of Traffic going through Barns Green village, which has limited space for large volumes of traffic as is. This will greatly increase the risk of road accidents and general congestion and is a valid point of concern for those living in the village, especially those with young children.

This risk is then made worse by the fact that parking around village facilities, such as the village pub and shop, which will in turn be put under great strain - a strain that is needless and hugely impractical for all living nearby.

Kind regards
