Date: 17th July 2026

Dear Sir/Madam,

**Town and Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure England)
Order 2015**

**Application for Approval of Details Reserved by Condition 6 (a), (b), and (c) to approved
application DC/21/0738**

Land On Old Forge Close

The Authority has considered your application, and I can confirm that the submitted information is acceptable pursuant to the following condition(s):

6. **Pre-Commencement Condition:** No development shall commence until the following components of a scheme to deal with the risks associated with contamination, (including asbestos contamination), of the site be submitted to and approved, in writing, by the local planning authority:
- (a) A preliminary risk assessment which has identified:
 - all previous uses
 - potential contaminants associated with those uses
 - a conceptual model of the site indicating sources, pathways and receptors
 - Potentially unacceptable risks arising from contamination at the site.

The following aspects (b) - (d) shall be dependent on the outcome of the above preliminary risk assessment (a) and may not necessarily be required.

- (b) An intrusive site investigation scheme, based on (a) to provide information for a detailed risk assessment to the degree and nature of the risk posed by any contamination to all receptors that may be affected, including those off site.
- (c) Full details of the remediation measures required and how they are to be undertaken based on the results of the intrusive site investigation (b) and an options appraisal.
- (d) A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in (c) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action where required.

The scheme shall be implemented as approved. Any changes to these components require the consent of the local planning authority.

Reason: As this matter is fundamental to ensure that no unacceptable risks are caused to humans, controlled waters or the wider environment during and following the development works and to ensure that any pollution is dealt with in accordance with Policies 24 and 33 of the Horsham District Planning Framework (2015).

Date of approval - 17th July 2026

The development shall be implemented in accordance with the approved plans and details listed in the schedule below.

Schedule of plans/documents:

Plan Type	Description	Drawing Number	Received Date
Supporting Statement	Contamination and RS Report	P17583 R17054	16.07.2026
Supporting Statement	Preliminary ground contamination risk assessment report	NONE	07.11.2025
Supporting Statement	Geotechnical Assessment Report	NONE	07.11.2025

Note to Applicant:

The applicant is advised that this notice relates only to the discharge of parts (a), (b) and (c) of condition 6. Part (d) of condition 6 will require formal discharge prior to the occupation of the development and will be continued to be monitored by the Local Planning Authority. However, this does not inhibit the applicant's ability to commencement the development.

This letter constitutes a legal document which should be regarded as an addendum to the original planning application.

If you have any queries or require further information, please do not hesitate to contact the Case Officer.

Yours faithfully

Emma Parkes
Head of Development and Building Control
