Planning Application DC/25/1269 - Objection

**Categories:** Comments Received

Hello,

I am emailing at the appalling news that Horsham planning are not securing a speed camera in conjunction with the new development in Bucks Green.

I would love for any of those in the planning section of this site to bring their small children along with me on my walk to school [REDACTED]

The vehicles that drive along the A281 range from small domestic vehicles to huge articulated Lorries. The pavements are so narrow that I am unable to walk with a pram [REDACTED] next to me. Not to mention that when any vehicle drives past, it feels like they are brushing past you. I am sure you can imagine that any vehicle is concerning, with increasing fear in vehicles size (articulated Lorries, builders vans with trailers, coaches and buses). When these are then driving above the speed limit, which is often, all it would take would be a slip/trip or fall and one of my children will die. I say it so often that I cannot believe in such a civilised society (we are fortunate to live in), I fear my children's lives on the way up and way back to school. How on earth can this be possible?

I would like to invite you to join us on our walk to school [REDACTED]  
[REDACTED] and then discuss your feelings on a speed camera (preferable average speed check cameras) on this section of road.

I look forward to hearing your availability. We are available Monday- Friday term times.

Kindest regards,

[REDACTED]
