The tree is an oak which has grown substantialy since it was last pruned in 2016.There are several branches which are touching the house and garage .The recommendation of the tree surgeon who inspected the tree was to apply to have a crown reduction by up to 3 metres and pruned by reducing and removeing two northwestern lower linmbs and easterly lower limb.This will provide a better shape and prevent the braches from damaging the house and garage .This will also provide a better balanced and s rounded crown profile .
