PHLO Comments: 30/08/2024

I have visited the site and met with the applicant. The existing lighting comprises of low-level garden string lights unlikely to be capable of causing skyglow or glare.

This department has issued several Temporary Event Notices for this site and to the best of my knowledge we have not received any complaints regarding noise or light nuisance.

Providing the applicant does not install high level floodlighting I have no objections to the current lighting set-up and no objections to change in hours of use.

Should you wish to discuss this matter further please do not hesitate to contact me.

Paul Hobbs
Principal Environmental Health Officer
