Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment - Trees and Landscaping
Comments:	The residential development would cause harm to the High Weald National landscape. It would not conserve nor enhance the beauty of the protected landscape. The site forms an important patchwork of fields, woodland & historic routes that contribute to the character & natural beauty of the high Weald.

The development would cause detrimental effects on the landscape character & visual amenity.
It would destroy the tranquility experienced by users of the public rights of crossing to the site.
The development would lie outside the built up area boundary.
This was not allocated for development & would fail to protect the character of the landscape.

Kind regards
