Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity - Overdevelopment - Trees and Landscaping
Comments:	A major concern is the lack of safe pedestrian access to Heron Way School, which is the catchment school. The proposed "safe" walking route is over 2km and requires children to walk along narrow, unlit footpaths next to 40mph traffic, with no safe crossings at key junctions including St Leonard's Road and Kerves Lane.

The plans also fail to properly assess the likely impact on traffic around St Leonard's / Comptons Lane, particularly during school run times. Increased traffic will worsen congestion, parking and road safety for existing residents, pedestrians and cyclists. In reality a lot of parents will drive their children to school creating more traffic congestion.

There is a real opportunity here to improve walking and cycling infrastructure and create genuinely safe access to local schools and amenities - but the current plans do not achieve this.

The site will significantly decrease biodiversity and the loss of yet another rural habitat
Horsham is changing significantly and not for the better with far too many developments. The amenities such as doctors surgeries, roads, water supply and schools cannot cope.

I respectfully wholeheartedly object to this planning application.

Kind regards
