| **FROM:** | WSCC - Highways Authority |
| **DATE:** | 22 February 2024 |
| **LOCATION:** | 1 Redford Avenue, Horsham, RH12 2HP |
| **SUBJECT:** | DC/24/0184<br>Removal of existing brick wall. Creation of a dropped kerb and driveway to the front. |
| **DATE OF SITE VISIT:** | N/A |
| **RECOMMENDATION:** | Advice |
| **S106 CONTRIBUTION TOTAL:** | N/A |

**This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.**

This application seeks the provision of a dropped kerb and installation of driveway. The site is located on Redford Avenue, a C-classified road subject to a speed restriction of 30 mph in this location.

A new 3.66m wide dropped kerb is proposed fronting the site on Redford Avenue. From inspection of WSCC mapping, there are no apparent visibility concerns with the proposed point of access on to the highway.

The proposed access works will be subject to a vehicle crossover (VCO) licence obtained through the local Highway Area Office. The proposed VCO would be constructed to a specification agreed with the local Highway Area Engineer.

The proposed driveway appears of suitable size to accommodate at least two car parking spaces. On-site turning does not appear achievable, so cars may have to exit the site in reverse gear. However, this is not anticipated to give rise to an adverse highway safety impact, owing to good forward visibility in this location. Neighbouring properties operate similar access arrangements with no known highway safety concerns.

In summary, the LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 115), and that there are no transport grounds to resist the proposal.

If the LPA are minded to approve the application, the following informative should be applied:

*Vehicle Crossover – Minor Highway Works*
The applicant is advised that in addition to obtaining planning permission that they must also obtain formal approval from the highway authority to carry out the site access works on the public highway. The granting of planning permission does not guarantee that a vehicle crossover licence shall be granted because the highway license process considers wider factors than are considered by the Highway Authority at planning stage.

Additional information about the licence application process can be found at the following web page:
