

Comments on Proposed Approval of Planning Permission

re Case Ref. No: DC/26/0151- Travellers' Site

16th March, 2026

**Planning Officer
Horsham District Council
Horsham**

I am writing in a personal Capacity and that of the Fryern Park Residents Association (FPRA) of which I am co-Chairman, which was established to represent the interests of the property owners of Fryern Park in relation to the safety and wellbeing of the residents using the road/lane in and around Fryern Park Area.

Being a committee member, I have canvassed opinion as to the Application for the Travellers' site and on behalf of FRRA members we wish to register that we object to the application, and it should be DECLINED for the following reason.

1 Planning of a similar nature has been declined before for 2 accommodation sites, and now this has been extended to 4 with no further improvements to the site that was declined previously-therefore there can be no justification in approving this application which will have material effects on residents in Fryern Park and the site itself

2.The UK Gov. Planning Policy for Travellers (12/12/24) sites has many clauses that would automatically reject this application and question the Horsham Council's acceptance of such a scheme if raised to Water and Government bodies, see sections:

F19/21

H

etc...

Whilst we would like to see the travellers sited in an appropriate site providing a good standard of accommodation, schooling and amenities we do not believe this current proposal would give them this, as it is also close to another site again which is again advised against in the government Policy document

Fryern Park Residents Association
