Reasons for comment:	- Other
Comments:	I write on behalf of my wife and I with regard to Planning Application ref DC/26/0778, Mr Sleight, 35 Pulborough Road, Storrington, RH20 4HJ. Having had sight and reviewed the documents associated with this proposed scheme, we make the following comments: As you will be aware No.35 is attached to our property, namely semi detached. Should this proposed plan proceed we will be expected to endure significant noise and disruption for the duration of the building works and associated alterations from commencement to completion. The distance between our west facing wall and No.35's east facing wall is approximately 3 metres We are also aware that, at some stage during the proposed building works, it is likely that access to our property will be required. Clearly this will require our consent which we will deny. Should this Planning Application be approved and given what we have detailed above we would like assurances (ideally in writing) that our reasonable requests below will be taken into account when considering this application:

1. We are kept informed of any alterations to the submitted proposed scheme that may impact us, and/or our property in anyway.
 2. Any damage to our property caused as a result of this project's duration, all rectification works and associated costs are the sole responsibility of Mr Sleight and/or his appointed contractors. This includes all labour and materials. All necessary works are to be carried out to an acceptable standard and to our satisfaction.
 3. All debris related to this proposed scheme is cleared from our property daily, again to our satisfaction.
- This being the case therefore we strongly object to this Planning Application and if necessary we will seek legal advice.

17th July 2026

Kind regards
