Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	If the cctv product is shared on request with law enforcement agencies I would see that as a positive benefit and contribute to the safety and security of Billingshurst residents. The presence of cctv will make the area safer and deter ASB and illegal drug activities. Jengers Mead is not the vibrant heart of the community some would make out but a place where people come and go for specific purposes eg visiting the Post Office or a takeaway

Much of the objection is directed at Napier who are viewed as an unethical operator who seek to rinse motorists through parking fines. That may or may not be an accurate position but should not inhibit cctv properly regulated and managed.

Kind regards
