Subject: RE: DC/26/0079 Land at 520564 133496 Brook Lane Faygate EH response

Hi Jacques

Thanks for the consultation request.

The development site is within 100m of both the railway lane and the A264 dual carriageway road. It's likely that noise from these sources will be quite high at the development site.

An Environmental Noise Survey should be provided to ensure the application is properly determined with respect to noise in accordance with requirements of the NPPF.

Regards

Lee
