Action...

REMIT

The above tree analysis has been arrived at by a visual ground level inspection of the tree/trees only, based on the experience and professional judgement of the author. The information is valid for a period of three months only, beyond which a further site inspection will be required. It takes no account of extreme weather conditions or other factors which may influence the structural stability and/or integrity of either the whole, or part of, the tree/trees in question and which are outside the control of the author. The author accepts no responsibility for any action taken as a result of the information given, nor for any injury which may occur as a result either of works undertaken to the tree/trees or by the tree/trees.
