Customer Details

Address:	Appledore Farm Rock Road Washington

Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Highway Access and Parking
Comments:	As the owner of the adjoining property I fully support this application. The existing access is dangerous especially for slower vehicles that need to get into the field. This is the only access for UK Power Networks to maintain the hedgerow below the high voltage power line that runs along the boundary between my property and this field. Rock Road should not be a 50mph limit but even if it was reduced to 40mph the proposed access would be needed given the proximity of the hill brow.

Kind regards
