

HORSHAM DISTRICT COUNCIL CONSULTATION

TO:	Horsham District Council – Planning Dept
LOCATION:	Collyers School 82 Hurst Road Horsham West Sussex
DESCRIPTION:	Installation of temporary single storey office building and a single storey double classroom building.
REFERENCE:	DC/26/0655
RECOMMENDATION:	No objection
SUMMARY OF COMMENTS & RECOMMENDATION: The recommended no objection is subject to a no objection from HDC Arboricultural team . It is requested that the location of the proposed tree planting is moved outside of the mature tree RPA and canopy reach.	
MAIN COMMENTS: The comments below pertain primarily to the Biodiversity Net Gain proposal as submitted in the above application. However, it should be noted that these comments are not exhaustive. All other ecology matters will be reviewed by Place Services and NatureSpace, where necessary. The metric calculation tool submitted currently demonstrates that the development will have a +13.29% net gain (+0.02 units) in area habitats. In accordance with HDCs significant on-site criteria, this proposal is not considered significant on-site BNG and therefore a legal agreement to secure the enhancements is not required. A HMMP condition has been suggested below, and this should be submitted alongside the Biodiversity Gain Plan when discharging the deemed pre-commencement biodiversity gain condition. <u>Post-development</u> 1.0 Given the proximity of the temporary buildings to the retained tree line comprising large trees, it is advised to seek comment from the HDC Arboricultural Officer on the retention of these trees in their current condition. Any loss or deterioration of these trees is not considered acceptable, but if the Case Officer deems the need of the development overrides this issue and the buildings cannot be relocated, any such loss or deterioration will need to be considered within the BNG assessment and therefore I request to be reconsulted. 1.1 The location of the proposed planting of 2x trees is considered too close to the significant mature trees. These should be moved outside of the RPA, and ideally outside of the canopy reach to ensure successful establishment.	

Draft HMMP

2.0 No draft HMMP has been provided in accordance with HDCs local validation list, however as the on-site proposals are not considered significant and are not complex, a full HMMP has been requested to be secured by condition. It is advised to review Natural England's HMMP checklist, template and companion document for expected content, and inclusion of the targeted condition criteria and how management prescriptions will help to achieve these are essential.

ANY RECOMMENDED CONDITIONS:

If minded to approve:

Informative –

Scenario 1: BNG Required

Condition

Habitat Management and Monitoring Plan (HMMP)

Pre-Commencement Condition:

The development hereby permitted shall not commence until a Habitat Management and Monitoring Plan (the HMMP), prepared in accordance with the Biodiversity Gain Plan and including:

- (a) a non-technical summary;
- (b) the planned habitat creation and enhancement works to create or improve habitat to achieve the biodiversity net gain in accordance with the Biodiversity Gain Plan, together with a timetable for its provision;
- (c) the management measures to maintain habitat in accordance with the Biodiversity Gain Plan from the completion of development; and
- (d) management responsibilities of the people or organisation(s) delivering the HMMP

has been submitted to, and approved in writing by, the Local Planning Authority.

The created and/or enhanced habitat specified in the approved HMMP shall be managed and maintained in accordance with the approved HMMP. Any proposed or retained planting, which within a period of 5 years after the completion of development, dies, is removed, or becomes seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species unless the Local Planning Authority gives written consent to any variation.

Reason: To ensure the development delivers a biodiversity net gain on site in accordance with Schedule 7A of the Town and Country Planning Act 1990 and Policy 31 of the Horsham District Planning Framework (2015).
