Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Other - Overdevelopment
Comments:	I object to this development on numerous grounds. Firstly, Horsham's infrastructure is inadequate for the ever-growing population of the town. The water supply is strained; there are not enough schools, surgeries, shops or leisure facilities and most importantly, no hospital.

Even if we had the right infrastructure, why not build on sites that have been left to rot over several years such as the former Novartis site?

My other concern is the traffic. The Brighton road is already so crammed with vehicles that many people use the Bucks Head road as an alternative. That is only going to get worse. Pedestrians don't stand a chance as pavements are non-existent or very narrow and certainly not safe to let children walk along on their way to school (assuming a local school had a place anyway).

The additional traffic from the development will also add to the general noise, fumes and light pollution which has a detrimental effect on people's health.

Then of course there is the question of nature or rather the loss of it. We continue to encroach on natural habitats and then complain when wildlife damages our gardens and upturns the (numerous) bins we have for recycling (in an attempt to be 'green' and save the environment!).

Please do not approve this development.

Kind regards
