

WEST SUSSEX COUNTY COUNCIL CONSULTATION

TO:	Horsham District Council FAO: Matthew Porter
FROM:	WSCC – Highways Authority
DATE:	20 May 2026
LOCATION:	Rampion 2 Onshore Substation Compound Land West of Kent Street Cowfold West Sussex
SUBJECT:	DISC/26/0134 DCO Requirement 22 (Code of Construction Practice and related to environmental management documents and plans) Discharge Request in relation to Rampion 2 Onshore Site Investigation Campaign 2a.
RECOMMENDATION:	Advice

The wording within Requirement 22 (Detailed Code of Construction Practice for the respective stage of works) of the Development Consent Order is noted. For the most part, the Requirement includes aspects that relate primarily to controls and mitigation for environmental type matters.

For the purposes of the stage of works for which the submitted Code of Construction Practice has been provided, WSCC Highways has no comments to make with none of the matters covered being relevant to the operation of the local highway network.

Ian Gledhill
