Good afternoon.

The planning for the renewal/ regeneration of the playing field at the end of Charrington way BBH. Can some body explain to me how you are going to police this area as in the dryer months there's a big problem with drug/ alcohol/ loud offensive music and bad language.

There is no point calling 101 as it takes to long and I'm sure 999 are too busy.

Also BBH Parish council put incorrect phone and email on leaflet regarding this work.

I emailed Bbh parish and was told no plans even though they had put in for planning.

But when I pointed out that this was not possible as drawings had to be done for planning they sent them to me.

Why is this all made do difficult and under hand to find anything out.

But your main problem is the field floods and I presume HDC are responsible for water run off and directing it in the correct direction.

Look forward to your reply.

125 Charrington way.
