Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity - Overdevelopment
Comments:	As a resident of The Daisycroft I object in the strongest way possible to the proposed development of the area to the south of the Bowls Club. The original proposed development was submitted as 10 single storey dwellings which might have been an acceptable level of development. This would probably have increased the population of the area by about 20/30 people and added 20 vehicles using

the nearby roads. However, the new application is for nine 2/3/4 bedroom houses which is not in accordance with the agreed Henfield Neighbourhood plan. The increase in the population would be considerably more and consequently the traffic levels would increase by the same multiplier. The road to the rear of the Coopers Way car park is generally fully parked up by about 9 a.m. as people working in the area park there for the day to access their places of work. This already makes this section of road a single track. Once the Bowls Club is active in the summer season the traffic levels increase. It is already hard enough to drive out onto the High Street from Furners Lane at peak travel times and this would be far worse with this level of housing being added to the area. Decisions regarding this application also need to consider the proposed development further up Furners Lane which will add even more traffic to the immediate area. Henfield already struggles to provide sufficient medical services, dentistry and basic shopping resources to the village and any addition to the population will just add to the difficulties. This proposal should be rejected as it will put undue pressure on this confined area during the building process particularly but into the future too.

Kind regards
