Comments:	Before any consent is given , I would ask that further details are given as to the type of 'slurry bank' being proposed. for example, will this be enclosed, or open? How will it be drained ? I have heard of the experience of people in similar situations, who have experienced ongoing foul smells and swarms of flies. This would obviously be unacceptable to residents in Thakeham; the nearest of which are less than half a kilometre away.

Should insufficient or unsatisfactory details be provided, I would change my stance to 'object'.

Kind regards
