Hi Stephanie

Hope you are well.

I have reviewed the Noise Management Plan prepared by Clarke Saunders Acoustics with respect to discharge of condition 9 (Noise Management Plan) of Planning Permission WSCC/028/21.

The report addresses the majority of the requirements of condition 9. However there is no reference to monitoring to ensure site noise targets are being met. Condition 9 states:

“The noise management plan shall include ‘best practicable means’ of noise prevention, reduction and minimisation (including provision for ongoing review, and dealing with noise complaints).”

I appreciate that there is a jigsaw of permissions for this site and this may be covered elsewhere, but I can’t see how they can meet the requirements of condition 9 without undertaking regular noise monitoring.

Regards

Lee
