Comments:	Dear Horsham Council Planning Dept, I have lived here for 6 years. My garden is adjacent to the field where planning permission of 4 luxury houses has been applied for. I have a camera to observe wildlife in the field. [REDACTED] [REDACTED], I have had foxes visit nightly and sometimes deer. I saw 4 roe deer in the field last week and 1 visited my garden last night, along with [REDACTED] a fox within minutes of each other. We all know we can't just keep destroying wildlife. We all know what will happen to the earth without them. When I first moved here my garden had many hedgehogs in, but despite leaving it very hedgehog friendly they have not survived. First the smaller animals die, then eventually we do. I know there is a shortage of housing, (I should know I rent a place with terrible voltage & plumbing because there is no council housing), but there isn't a shortage of luxury housing. I am more than happy to provide photographic evidence of all my wildlife visitors. Thank you. [REDACTED]

Kind regards
