Customer Details

Address: Friars Cottage Common Road North Henfield

Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Overdevelopment - Privacy Light and Noise - Trees and Landscaping
Comments:	I wish to reiterate my previous comments and add the following : This proposal has total disregard for my property. The Turning Head is just a few metres from the rear of my house. This will create noise and pollution. A Sewage Pumping Station just a few metres from my house will cause great concern over leakage and odours A proposed hedge and tree line will be approximately 1.8

metres from my house. Bearing in mind the ground level at the rear of my property is 1.3 metres lower than the site level, this will be completely overbearing causing a massive loss of light.

With regard to the 2 oak trees, whilst the builders will follow constraints enforced upon them avoiding damage to the roots, these trees are still doomed. Once the properties are occupied the residents will soon discover the drawbacks of living with huge trees in such close proximity. Legally or illegally they might well create their demise.

This site is totally unsuitable for the amount of proposed properties.

Kind regards
