Subject: DC/25/2057 Land North of Little Slaughterford

Categories: Comments Received

I am a member of the public and object for the following reasons:-

- Design
- Highway Access and Parking
- Loss of General Amenity
- Other
- Overdevelopment
- Trees and Landscaping

My address - Camomile Barn, Emms Lane, Brooks Green, West Sussex, RH13 0TR

To the Planning Officer,

OBJECTION: Application DC/25/2057 Land North of Little Slaughterford, Chapel Road, Barns Green 68 Dwellings – Miller Homes

I object to this application for the following reasons.

This development application is not one of the identified sites in the Neighbourhood Plan and is not meeting proven local housing demand in an appropriate manner, and should be refused.

Furthermore this is speculative housing development which is not essential to the location, and would urbanise and destroy a rural countryside green field which is in contradiction of the Countryside Policy.

The proposed road layout for the housing may also jeopardise the viability of the community pub, village shop and post office which are essential to elderly residents due to the limited public transport.

Additionally the proposed development will also significantly damage the environment in a number of ways, including important habitat loss.

It will exacerbate the already serious issues regarding surface water flooding and the treatment of and pollution by sewage. Already the current overflows from the Barns Green sewage treatment works are threatening the River Ardur Restoration Project. These seriously damaging overflows will increase if the application is not refused.

For the following reasons I object to this Application.

- Discharge of Sewage into Stream from Sewage Works which is over the capacity limit stated by Southern Water
- Flooding – Roadway Surface Water and Other Runoff which will increase the regular serious incidents of flooding in this area
- The Removal of Ancient Hedges which are such an important wildlife habitat, and help retain surface water runoff
- Harm to Ancient Woodland and Other Habitat Loss

- Inadequate Infrastructure including Electricity Supply which is demonstrated by the facts that a generator is needed to supply Sumners Fields
- Traffic Generation and Parking Impact adjacent to the village shop and the cumulative impact of additional traffic generation
- Public Transport Limitations and Issues
- Loss of Village Amenity with the field no longer available for community and charity events
- Village Character, Listed Buildings and Heritage Impact on the area noted in the Neighbourhood Plan as important pastoral fields
- Loss of Rural Amenity created by the field with animals grazing adjacent to historic buildings
- Over Development, Inappropriate House Design and Density, the house designs are imposingly high and the density is urbanisation
- Housing Mix and Deliverability Concerns, HDC Housing Officers stated these concerns
- Conflicts with the Countryside Policy, the development site lies outside the Built-up Area Boundary (BUAB) and is defined as 'Countryside' where development should only be permitted if essential

Yours faithfully,
