

HORSHAM DISTRICT COUNCIL CONSULTATION

TO: Nicola Pettifer	Horsham District Council – Planning Dept
LOCATION:	Land North of Shermanbury Road, Partridge Green, West Sussex, RH13 8EU
DESCRIPTION:	Outline Application for the demolition of existing buildings and structures and the erection of up to 75 dwellings with public open space and vehicular access point from Shermanbury Road with all matters reserved except access.
REFERENCE:	DC/26/1318
RECOMMENDATION:	Advice / No Objection / Objection / More Information / Modification / Refusal
SUMMARY OF COMMENTS & RECOMMENDATION: The application is supported by a desk based archaeological assessment that concludes that the site has a low to moderate potential for archaeological remains and so further archaeological investigations are required to clarify the nature, extent and significance of any archaeological deposits. In this case it would be reasonable to secure the work with an archaeological condition	
MAIN COMMENTS: The application is supported by a desk based archaeological assessment produced by GHC Heritage that has used appropriate sources, including the West Sussex HER, to determine that the site has a seemingly low to moderate potential for archaeological remains from the prehistoric and Roman periods with a low potential for later periods To clarify the nature, extent and significance of any archaeological deposits that may be present then further investigations are required and so in the first instance an archaeological field evaluation of the site would be appropriate which enable suitable mitigation measures to be developed for the site should significant archaeology be discovered. In this case I consider that it would be reasonable and proportionate to secure the required archaeological investigations and any subsequent mitigation that may be required by attaching the following condition should planning consent be granted.	

ANY RECOMMENDED CONDITIONS:**Pre-Commencement Condition:**

i) No development shall take place until a programme of archaeological work has been secured in accordance with a Written Scheme of Archaeological Investigation which has been submitted to and approved in writing by the Local Planning Authority.

ii) The development hereby permitted shall not be commenced until the archaeological site investigation and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of Investigation approved under condition [i] and that provision for analysis, publication and dissemination of results and archive deposition has been secured and approved by the Local Planning Authority in writing.

Reason: As this matter is fundamental as the site is of archaeological significance and it is important that it is recorded by excavation before it is destroyed by development in accordance with Policy 34 of the Horsham District Planning Framework (2015)
