Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	Dear Sirs I have no objection to the proposed development but would like to request clarification on something. No Design & Access Statement has been prepared, which I would expect to cover any proposals around sustainability. My comment is around the possible installation of a heat pump. I would just like confirmation that if one is to be installed, this will

not be located on the southern elevation of the building.

We have a bedroom window in this location and I would be concerned about the noise from a heat pump.

I'd be grateful if you could seek and request confirmation.

Kind regards
