Description

The works site is situated c. 500m to the East of the Town of Cowfold with the boundary contiguous to Oakendene Industrial Estate and Oakendene Manor. The A272 runs in an East-West orientation directly to the North of the site. The main habitats identified within the substation area include improved grassland and arable land bounded by native hedgerows, including a species-rich hedgerow which bounds the site to the east. Mature trees are present within the hedgerows. A wet ditch is present between the two fields in the north of the site, and a stream, connected to an off-site pond is located along the southern boundary.
