Subject: DC/25/0955 - Chewton Slinfold windows

Dear Helima
Writing in regard to the heritage velux windows Chewton have installed.
We live at Hall land in the village of Slinfold.
Which is a listed building and in a conservation area, so understand the importance of keeping the integrity of the building whilst bring the building up to today's standards.
We feel the roof lights that have been installed do keep the integrity but also function, which obviously is very important too!
We believe they have are sympathetic to the listed building and the conservation area.
Regards
