Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Trees and Landscaping
Comments:	I am writing to request the urgent removal of a tree located on our neighbours property, which has caused significant damage and poses an ongoing safety risk. In the past three years, this tree has dropped two vey large branches, one of which directly impacted and destroyed our shed. The repeated failure of this tree's branches demonstrates its instability and the immediate danger it presents to our property and, more importantly, to the safety of anyone in the vicinity. The destruction of our shed and fences is a clear indication that the tree is no longer safe to remain. Waiting for further incidents is an unacceptable risk.

Given the history of branch failure and the resulting damage, I strongly urge you to approve the removal of this tree without delay. This action is necessary to prevent future property damage and ensure the safety of our house. My wife and I are now parents and would like to enjoy the full range of our garden, with our son.

Kind regards
