IN THE MATTER OF THE STATUTORY DECLARATIONS ACT 1835

AND IN THE MATTER OF

NEW HOUSE SINNOCKS WEST CHILTINGTON PULBOROUGH RH20 2JX (the
"Property")

I, Richard Keeling of New House, Sinnocks, West Chiltington, Pulborough, RH20 2JX do solemnly and sincerely declare as follows:

1. I make this statutory declaration from facts within my own knowledge except where otherwise stated. Where information has been passed to me by any person then I identify the source of my information and verily believe it to be true.
2. I make this statutory declaration in support of an application for a certificate of lawfulness of existing use and development (the "**Application**") in respect of the Property and to evidence that the new shed at the Property has been in use as a private hobby workshop and as storage space since at least June 2013.
3. I have particular knowledge to make this statutory declaration as I built the Property and lived there from September 2006 and carried out the works to develop the shed.

Property

4. The Property is a modern home which I constructed between 2005- 2006 pursuant to planning permission with reference DC/04/1791 at **Exhibit RK1** and is as described in the amended plans submitted as part of the planning application at **Exhibit RK2**. I have lived there as my private residence since this time.

Development of the Shed

5. As can be seen from the Google Earth image at **Exhibit RK7**, the plot of land on which the Property was constructed was previously green space, bordered by hardstanding used for parking vehicles and temporary storage buildings.
6. One such row of buildings is highlighted with a red outline in **Exhibit RK7**. This is a line of small stable blocks with corrugated iron roofing (the "**Sheds**"). It is possible to see from the image that the Sheds were already rusting at the time of the image dated 31 December 2001 and they had a very poor construction, the walls being mainly built from concrete slabs which slotted into posts and the roofs being similarly insubstantial.
7. In early 2011, it was apparent to me that the Sheds would not last much longer without intervention. The roof had fallen in on several of the Sheds and they were not useable for my purposes, even as outdoor storage space.
8. As a result, I decided to clear a section of the Sheds and build a new shed to the same footprint. I planned to use the new shed for storage purposes and as a private workspace for my hobbies (the "**New Shed**"). I purchased the roof trusses for the roof of the New Shed in November 2011, **Exhibit RK8**. I would then have erected the roof trusses, added the roof covering and then completed the other elements of the works. I would estimate that I finished the construction of the New Shed between May - September 2012.

9. It is apparent from the Google Earth image in **Exhibit RK9** that the New Shed has been in place since at least 6 June 2013 (the approximate location of the New Shed is outlined in red).

AND I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declaration Act 1835

Declared by the above
