Hi William

Thank you for the clarification and Andy has also confirmed he has seen the tree.

Are you able to forward the photos again to me please, as I cannot open/see them

Many thanks

Good afternoon,

I can confirm that i am an arboriculturist myself and i did give a brief description of what the issue was on the application - namely that the tree is leaning on the property fence and also has a weak union/included bark. I did also call your tree team last week and spoke with a tree officer who had viewed the tree and agreed that it needed to be removed.

Please also see pics below, i think they illustrate the issue:

Best Regards

William

We have been unable to validate your application at the present time, please see the attached letter from Horsham District Council for details.
