Dear Halima

I am forwarding the photos showing the interior of the changing rooms and confirmation from my client that they have been in use since 2020.

I hope this is satisfactory , if not please let me know.

Kind regards Sara Rudkin

Hi Sara

Here are some internal shots of the new east part of the building, which has been used continually since post Covid lockdown in 2020.

The photos comprise a small kitchen, disabled WC, showers, and one of the two changing rooms.

I can confirm that these have been used since 2020 as I, being part of the cricket club, have used them personally. If it carries any weight I am the President of Barns Green C C and a retired Chartered Surveyor.

Regards

Russ
