Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	I am writing to offer my full support for the planning application relating to the proposed private burial ground and associated access. The applicants have approached this sensitive project with care and consideration for both the environment and local neighbours. The plans do not blight or impact the landscape, and the burial ground is entirely private, ensuring quiet reflection without

intrusion or disruption to neighbouring properties.

From what we have seen, every effort has been made to respect the privacy and values of those living nearby, and the design and access arrangements have been thoughtfully implemented with minimal environmental impact.

We believe this application reflects a deeply personal and respectful initiative, and we sincerely hope it will be granted approval.

Kind regards
