Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Self-build and custom build development

Are you building more than nine houses?:
No

Is the total size over 0.5 hectares?:
No

Do all buildings meet the definition of self-build or custom housebuilding as set out in [section 1\(A1\) of the Self-build and Custom Housebuilding Act 2015](#)?:
Yes

Does your Local Planning Authority require applicants for self-build and custom-build development to evidence their eligibility?:
No

Please justify the reason why biodiversity net gain does not apply:
Self build development

Note: Please read the help text for further information why developments may be exempt or not in scope.

Principle of development via fallback to Class Q will be established when conditions precedent are discharged.

While the proposal would result in a large footprint across the breadth of the site, the single storey nature of the proposal is considered to limit the visual presence and dominance of the building.

While the proposed annexe would extend to a length at the front of the site, the building would reflect the design and form of the host dwelling and would be considered appropriately subservient in scale.

Should an application be submitted, it would be beneficial to provide a schedule of materials and finishes to fully assess the visual impact of the proposal.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
