Description of Proposed Works

Please describe the proposed works

Demolition of the two existing sheds that have fallen into disrepair (total internal floor area 33m2). Removal of existing concrete foundations. Installation of new foundation. Erection of a new timber-framed building (approximate internal floor area of 33.7m2) to be used as a shed for storage and a workshop.

Planning permission is sought as our house is within the AONB, the new shed is more than 10m2, and more than 20m from the main house. Otherwise it would be classed as a permitted development. The new building is only visible to us and our neighbours in Winterpick Corner. They have said they have no concerns as it is not visible from their house due to the distance and screening by trees. It is not visible from the golf course or any public right of way. From our perspective we see it as an enhancement especially as it simply replaces two old sheds which are eyesores.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.
