Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Design - Other
Comments:	I request name and address anonymity regarding these comments. Application reference DC/26/1182 Section 73A retrospective application - alterations to development approved under DC/23/1325 With reference to revisions to MACHINERY STORE & HAY BARN, point 4, Mezzanine hay

store & office level added, my comments are as follows;

1 Has a fire engineer been consulted re the design change of the building (fire strategy) in order that it conforms with fire safety regulations?

2 Should there be structural fire protection for this building?

The responsible person has a duty of care regarding the persons using the proposed mezzanine area.

I understand there is limited access for large vehicles e.g. fire engines to this site, and therefore fire prevention is key for personnel, animals, surrounding buildings and vegetation, particularly as we have had an extremely dry summer with wild fires destroying much of the landscape.

Kind regards
