[redacted]

Our client, Nicola Pitts has come back as follows:
We are not planning on replacing the cherry tree in decline. Instead we have a statue to put in its place.
The dead tree behind the hedge is not seen and is covered by other shrubs so we will not be planting anything in its place.
The small tree near the patio will be replaced by small shrubs and bedding plants.

We are not planning to plant any new trees.

Hope this will be acceptable [redacted] this is a densely populated area of trees and if replanting tree specimens is a requirement, he should be able to discuss with the resident.
