Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Loss of General Amenity - Other - Overdevelopment
Comments:	The addition of this illuminated unit further degrades the streetscene, environment and accessibility. Specifically in respect of this application, I object for the following reasons: 1. It adds to an already cluttered and obstructed pavement

2. Reduces visibility and access for pedestrians.
3. Further reduces the width of the pavement. The pedestrian route is already compromised by a haphazard arrangement of other street furniture, cars stopping at the takeaway premises, and entrance to Barnes Mews.
4. Is an unpredictable and unnecessary obstruction for partially sighted, blind or people with reduced mobility and the use of mobility vehicles.
5. The unit's location is a distraction to traffic approaching the Bishopric / Albion Way junction which is already hazardous with traffic lights and a complex pedestrian crossing.

This whole scheme requires an in-depth risk assessment by all affected agencies.

Fundamentally, this application seriously conflicts with the recent proposals by HDC to improve the pedestrian and cycle access along the Bishopric and makes it more difficult to add a shared-use footpath/cycle route when that scheme is implemented.

Kind regards
