Comments:	I am writing to support the planning application for the demolition of the existing buildings and the building of one new home at Barnards Nursery, Rock Road, Washington. I live next door at the bottom of the site and have done so for over 20 years. For most of that time, I have been looking at the old greenhouses and buildings, which have been left to fall into a bad state and do not look good. Replacing them with one new home will be a big improvement and will make the whole site look much better. I also want to say that the developers have been great to deal

with. They have already cleared parts of the site and put up a new fence along the back of my field, and they have been very helpful with the boundaries and anything else I've needed. For me, this will be a positive change, and I fully support the proposal.

Kind regards
