Subject: RE: Planning Application Consultation - DC/25/1994 Chancton Down Horsham Road Steyning EH response 310326

Hi Bethan

Thanks for your message.

I have reviewed the noise report provided by the applicant and prepared by EAS Ltd.

The main concern was with the application was the proximity to the adjoining Chanctonfold business park to the south, which includes a children's nursery and other commercial uses. The noise monitoring results provided do not show any indication of significant noise from these commercial activities. The measured noise levels are consistent with road traffic noise from B1235 Horsham Road being the dominant source of noise at the application site.

Accordingly no additional measures are required with respect to noise.

Regards
