Tough Mudder London South 2025
Noise Management Summary

This document sets out the specific details for noise management during the build and live event as requested by Horsham District Council (HDC).

This document is intended to form the basis for planning conditions.

Aim
To enable Tough Mudder to run its obstacle course event; including build, customer entertainment and key safety messaging without causing unreasonable and unnecessary noise disturbance.

- To comply with Licensing & Planning conditions.
- To manage noise impact on local residents.

Timings
Construction Hours
Tough Mudder will restrict its construction work which could reasonably be foreseen to generate a public nuisance to the following times;

- Monday – Friday, 08:00 - 18:00
- Saturday, 09:00 - 13:00

Monitoring
Noise levels to be monitored at agreed location* to ensure compliance with the above. Monitoring will be carried out by 3rd party sound specialist overseen by the Event Director. Monitoring conducted at start of day, for the first 15 minutes following commencement of PA/Music and hourly throughout the day. Sound levels to be adjusted accordingly.

***Agreed location**
Monitoring to be conducted at a suitable location along the site boundary near the sensitive façade. Location to be pre-agreed by HDC Environmental Health team. Location in the yellow circle below.

Complaints
Residents may contact the Event Control Room, via text, on 07843 388673, should they wish to raise concerns regarding noise levels. Any complaints received on the day will be reviewed and actioned accordingly.

To enable effective assessment residents are encouraged to provide the following detail;

- Location of the complaint
- Nature of the noise
