Subject: IMPORTANT: Planning applications DC/26/0119 DC/26/0120 DC/26/0182
DC/26/0183

Categories: Comments Received

These Planning applications are currently at the recommendation stage:

[DC/26/0119](#)

[DC/26/0120](#)

[DC/26/0182](#)

[DC/26/0183](#)

I am aware that WSCC has submitted responses to these applications, including comments "The existing pedestrian provision will not be impacted by the proposed Street Hub." and "The proposed location is not anticipated to result in an obstruction to pedestrians utilising the footway".

This is patently not true and even without a site visit it is clear that these proposed BT Hubs would occupy up to 25-33% of the available pavement width and therefore would have a significant impact for all pedestrians, especially those with mobility or visual disabilities.

I would therefore be grateful if you would disregard WSCC's opinions in determining these applications.

Kind regards,
