Good morning

I am writing in response to the planned building of four detached dwellings in Church Farm Walk, Upper Beeding.

In my opinion far too many larger dwellings are being built.  
We need affordable one/two bedroom dwellings.

We need to build on brown sites and / or convert buildings which are already there.

We need to protect valuable wildlife sites and here in Upper Beeding it is known that this land is a haven for a variety of animals.

I would be interested to hear about the progress of this project.

Sincerely,

[REDACTED]
