FINISHES

Anteak | Golden Oak | Black | Cream | Irish Oak | Extended foil range

Agate Grey | Silver Grey | Basalt Grey | Chartwell Green | Blue 5011 | RAL, BS or Farrow & Ball

A wide range of grained or smooth foils are available, either for the exterior of the window, the interior or both. In addition to this, we can offer a molecular-bonded spray finish using colours from BS, RAL or Farrow & Ball.

KEY FEATURES

A range of key-lockable handles in offset, monkey tail and teardrop designs.

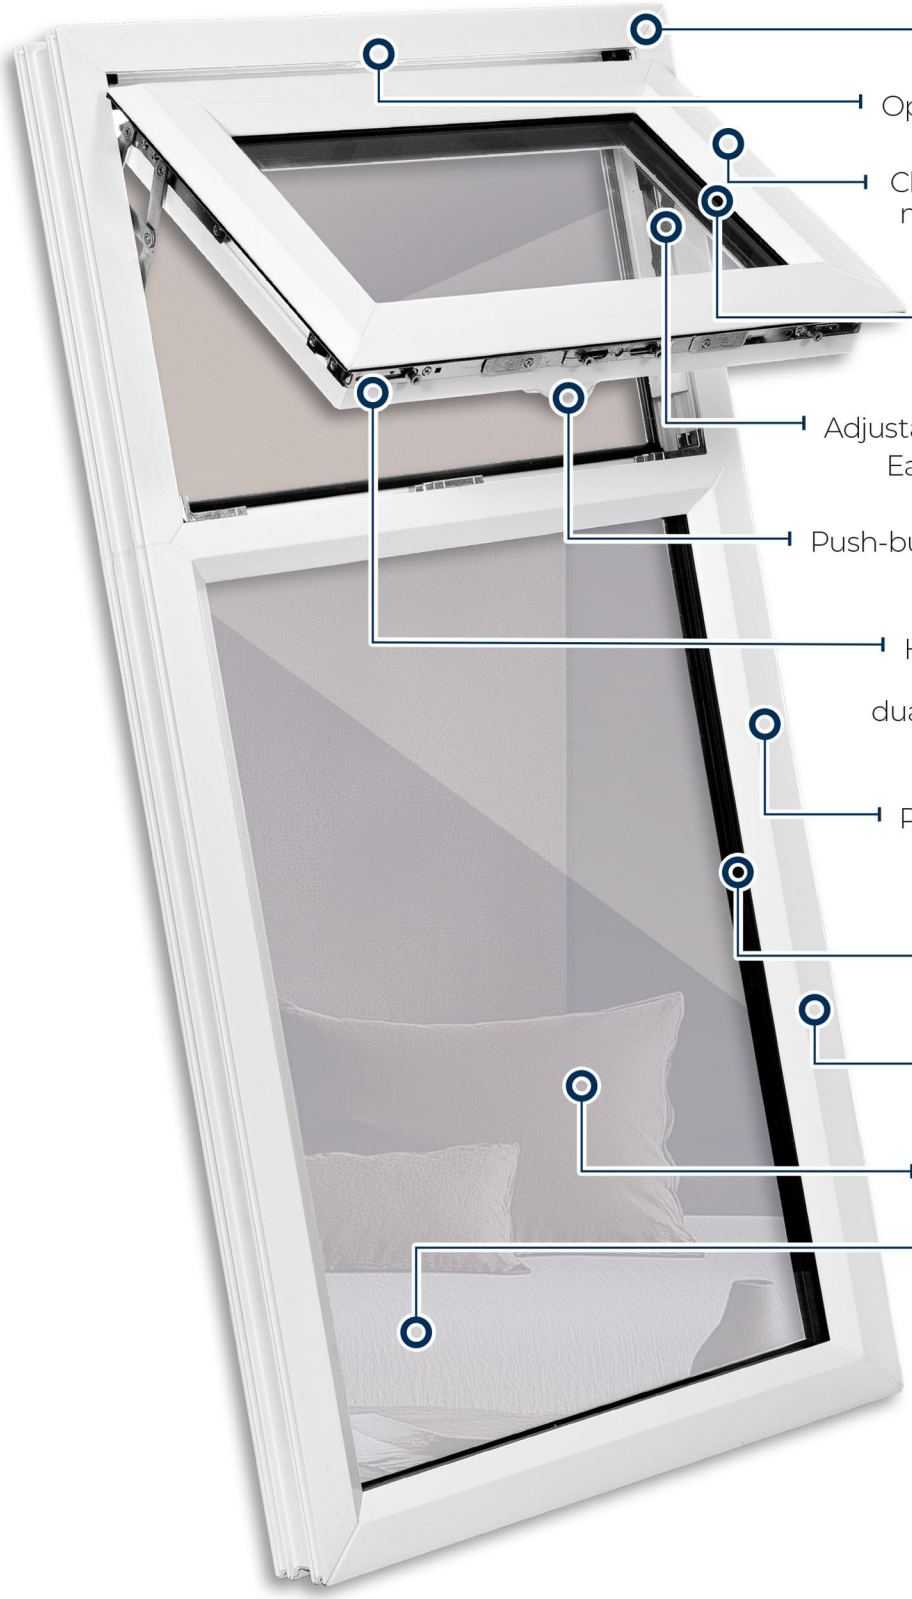

Friction stays for smooth and reliable operation all year round.

Window keeps with dual slots enabling a lockable 'slightly-ajar' ventilation position.

Close-up of fusion-welded sash corner and mid-rail overlap.

Fusion-welded frame

Optional hinge bolts for enhanced security

ChamferedSASH profile uses a chamfered moulding around the edges of the profile for a sleeker, more modern appearance.

Ultra-low profile, co-extruded glazing gasket is almost invisible

Adjustable friction stays for top-hung windows. Easy-clean, fire escape stays for side-hung.

Push-button, key lockable handles, available in a choice of colours

High security, multi-point locking system using roller-cam bolts, shoot-bolts and dual-slot keeps that enable a lockable night ventilation position

Polished finish reduces maintenance and retains a cleaner look for longer, helping resist airborne pollutants and moulds

A choice of either black, white or grey, warm edge spacer bar

High-impact modified PVCu prevents cracking with age or extreme cold

Internally glazed for enhanced security

Double-glazed unit uses clear energy glass, to achieve maximum amounts of light, and an 'A' WER / 1.4 U-Value. Triple-glazed 36mm units can achieve an 'A+' / 0.9 U-Value.

Extending shootbolts form another part of the multi-point locking system.

Pull-in blocks ensure tight compression of the sash gaskets against the frame.

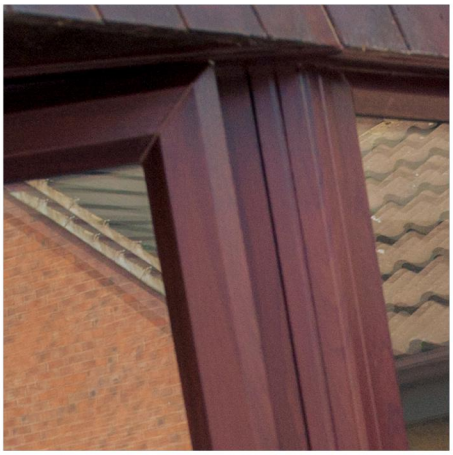

Expanding 'mushroom bolts' form another part of the multi-point locking system.

Hinge guards protect the hinged side of the opening sash for true multi-point locking

KEY FEATURES Standard Specification

The ChamferedSASH casement window offers a sleek, contemporary style suited to modern and traditional properties alike.

The outer frame, sash and glazing beads are interchangeable to achieve an individual style.

TRIPLE GLAZING

Also available with a triple-glazed sealed unit

100% LEAD FREE

Our PVCu is ompletely free of poisonous lead stabilisers

ENERGY EFFICIENCY*

Whiteline ChamferedSASH is one of the best performing products on the market, taking full advantage of the increased thermal efficiency offered by its six chamber profile.

*Subject to specification

GLAZING BEAD

Matching Chamfered glazing bead fitted as standard with the option of a Sculptured glazing bead for contrast..

OUTER FRAME

Six insulating chambers are created in the Sculptured and Chamfered outer frames. You can opt for a contrasting Sculptured outer frame with Chamfered Sashes for a truly bespoke product.

LOW LEVEL GASKETS

The co-extruded gaskets are barely visible as they don't extend above the level of the sash. Being co-extruded means that they won't shrink either.
