Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Design
Comments:	We have no objection to the extension but would like to highlight that the prior approval application does not give any indication of the materials that will be used or show the visual appearance of the finished extension. We assume that the materials to be used on the extension will be similar in colour and style to existing so that the extension is of a similar visual appearance to the existing house.

Kind regards
