

Diagram illustrating the location of PV panels (shaded area on the roof) and the location of the SAP assessor (indicated by a small figure on the front door).

A line drawing of a house with a gabled roof. The roof is covered in horizontal lines. A small dormer window with a decorative top is centered on the front-facing slope of the roof. The main body of the house is a simple rectangle with a horizontal line indicating a base or foundation.

A detailed floor plan of a four-bedroom house. The layout is symmetrical around a central landing. The landing features a staircase with an arrow pointing upwards. To the left of the landing is a bathroom (labeled 'Bath') and a bedroom (labeled 'Bed 2'). To the right is an en suite (labeled 'En suite') and a bedroom (labeled 'Bed 1'). At the top of the plan are two more bedrooms, 'Bed 3' and 'Bed 4'. A central hallway (labeled 'St.') connects the landing to the bedrooms. Closets (labeled 'W.') are located in the bedrooms and near the landing. The plan also shows a front entrance and a back entrance.

This architectural elevation drawing shows a house with a gabled roof. The main body of the house has horizontal siding. A chimney is located on the right side of the roofline. The front facade features a small square window on the left and a taller rectangular window on the right. A small porch with a flat roof is attached to the right side of the house. The drawing uses simple lines and shading to represent the building's form and materials.
