Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Other - Trees and Landscaping
Comments:	i object for the following reasons: a. increase in traffic in rural area and extra cars for residents of the property

b.current area already suffers from sewerage issues and problems with electricity supply which will be made worse with this development
c. lower area of barnes green already suffers from flooding and water run off which will only be made worse by this development
d.barnes green has a highly limited bus service so how will this work with 68 new houses except for additional traffic and greater problem with parking etc
e. we run the risk of losing the pub and the shop which are the heart of the village if you cannot park for either due to entrance to the proposed site
f ancient hedge rows will be demolished which is not only a tragedy but we cannot replace these with new hedge rows
g cannot understand why an area which was deemed the least good area to develop has some how managed to be the only area as it makes little or no sense

Kind regards
