Good afternoon Sam,

Planning reference: DC/26/0266 | Thakeham Mushrooms Storrington Road Thakeham Pulborough West Sussex RH20 3DY

Thank you for consulting us on the above application. I have reviewed their ecological appraisal and note it is stated there has been some changes to onsite habitat since their previous assessment nearly 3 years ago due to less management, however there are no photos of this included. Looking through further documents, it seems there aren't any others available, except for a few within the Design and Access statement. Could I please therefore request some detailed photos which demonstrate the current state and extent of the different habitats onsite, if these could also be labelled in some way to explain where they are this would be really helpful

Thank you for your help,

Best wishes,
